19th March, 2018

CIRCULAR

President / General Secretary
All NCCOEEE constituent organizations

Dear Brothers and Comrades,

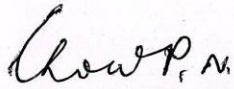

All of us have noted that an ambience of united struggle of Electricity Employees and Engineers all over the country has been getting momentum day by day, while NCCOEEE March to Parliament on 3rd April, 2018 is coming closer.

Meanwhile, Vidyut Karmachari Sanjukta Sangharsha Samiti, Uttar Pradesh is resorting to half day long demonstration in Lucknow and all Power installations and establishments all over the state between 2 and 5 PM on 19th March to oppose Government move against privatization major Electricity Distribution Hubs in the state. Sanjukta Sangharsha Samiti has also declared one day token Strike/work boycott on 27th March, 2018.

NCCOEEE, on behalf of all its constituents urges upon Government of Uttar Pradesh to explore avenue of amicable settlement of the demands of the employees, mainly opposing privatization. Experience of Odisha, state as a whole and many other suburban distribution region indicate gross failure of distribution privatization. Only outcome of privatization, so far observed, is gross hike of tariff causing hardship of the low end consumers.

NCCOEEE also warns UP Government to refrain from any oppressive measures against Electricity employees struggling for justified and logical causes. At the event of any oppressive measure against Electricity employees of UP, their brotherhood in the rest of the country will not remain as silent spectator.

Long Live Unity of the Electricity Consumers and Employees.
Long Live Unity of the Working Class.
